Micah –

Looks good for the most part. A few tweaks. Do you have the trinomials for the temporary site numbers? LW-02H and LW-04H. Also, the confidential appendix needs to be updated to include the Sacred Lands documentation. I have attached the County's documents. Please include the documentation from 2011. I will call you tomorrow.

Thanks,

Donna Beddow

Re Tribal Consultation Pursuant to Government Codes No. 127e §§ 65092, 65351, 65352.3, 65352.4, 65560 and 65562.5 (SB 18) Soltec Solar, Lauwest Solar Farm, 3300 12-002 (MUP), Log No. 12-21-001; located in the Boulevard-Jacumba area of the Mountain Empire Region; San Diego County, California

Dear Ms. Wright:

Government Code §65352.3 requires local governments to consult with California Native American tribes identified by the Native American Heritage Commission (NAHC) for the purpose of protecting, and/or mitigating impacts to cultural places. The Native American Heritage Commission is the state "trustee agency" designated for the protection of Native American Cultural Resource pursuant to CA Public Resources Code §21070. In the 1985 Appellate Court decision ((170 Cal App 3rd 604), the court held that the NAHC has jurisdiction and special expertise, as a state agency, over affected Native American resources, impacted by proposed projects including archaeological, places of religious significance to Native Americans and burial sites

Attached is a consultation list of tribal governments with traditional lands or cultural places located within the Project Area of Potential Effect (APE). The tribal entities on the list are for your guidance for **government-to-government consultation** purposes. Pursuant to CA Public Resources Code §5097.95, please provide pertinent project information to the tribal consulting parties.

The NAHC did perform a Sacred Lands File search of the project location and Native American cultural resources were not identified in the project areas you identified.. This area of San Diego County is known to the NAHC to be very culturally sensitive. Also, lack of surface evidence of archeological resources does not preclude the existence of archeological resources that may be discovered inadvertently during construction activity. California Public Resources Code §§5097.94 (a) and 5097.96 authorize the NAHC to establish a Sacred Land Inventory to record Native American sacred sites and burial sites. These records are exempt from the provisions of the

California Public Records Act pursuant to. California Government Code §6254 (r). The purpose of this code is to protect such sites from vandalism, theft and destruction. Please contact the Native Americans on the attached list to determine, from their knowledge, if the proposed changes or governmental action might impact on Native American cultural resources. If so, Section 15382 of the CEQA Guidelines defines a significant impact on the environment as "substantial," and Section 2183.2 requires documentation, data recovery of cultural resources identified. The NAHC recommends that lead agencies provide appropriate archaeological studies and pertinent project information to the consulting Native American tribes, as appropriate. Tribal Governments have 90 days to comment from the receipt of the letter inviting consultation.

The Native American Heritage Commission works with Native American tribal governments regarding its identification of 'Areas of Traditional Use.' The Commission may adjust the submitted data defining the 'Area of Traditional Use' in accordance with documentation provided by consulting tribes, generally accepted ethnographic, anthropological, archeological research and oral history.

If you have any questions, please contact me at (916) 653-6251.

Sincerely,

A handwritten signature in black ink, appearing to read "Dave Singleton", is written over the typed name and title.

Dave Singleton
Program Analyst

RE: SACRED LANDS; LanWest Solar Farm; Project Numbers: 3300 12-002(MUP),
Log No. 12-21-001; Section: 28; Township: 18S; Range: 07E; Thomas Brothers:
1300-G6

The Native American Heritage Commission (NAHC) has listed you as a contact that may have information regarding cultural resources. The above referenced proposed

project is a Solar Energy Project. It is located on parcels: 612-091-12, 612-030-18, 613-030-28 & 613-030-35 in the community planning area of Boulevard and is subject to the California Environmental Quality Act (CEQA) and the County of San Diego Resource Protection Ordinance (RPO). A site survey was conducted October 22, 2011 and two previously-recorded historic sites were relocated and the records updated, and two new historic sites were found and recorded. Testing of all four sites will be required.

The County is requesting your participation in the identification of Sacred Lands. The project is currently in the process of environmental review.

Any information you have regarding cultural places will be kept strictly confidential and will not be divulged to the public. Although we are providing to you for the purposes of your review this confidential information regarding the location of cultural places, this information is not available to the public.

The County of San Diego feels that your comments regarding decisions that may affect cultural resources are very important. Please forward any comments regarding this project to Gail Wright by April 8, 2012.

If you have any questions, you can reach me at (858) 694-3003; further contact information can be found below.

Sincerely,

Gail Wright
